Speaker Highlights

We've got a fantastic line up of speakers for you at MedCon.

Allow us to introduce you to a few of them...

Dr Peter Cruse

Dr Peter Cruse is an experienced senior healthcare leader and manager who has founded, funded, built, and operated four significant hospitals in the Middle East and Africa. He is a former South African national medical Rhodes Scholar at Oxford University and former Chief Specialist Pathologist at the 1,800 bedded Groote Schuur Hospital (GSH) in Cape Town.

Dr Hugh Kennedy

Hugh studied medicine at Oxford University between 2012-2018. After graduating, he completed his foundation training in Essex, before taking an "F3" year working in paediatrics at the same hospital.. He is currently a paediatric ST3 and has recently started a new job in paediatric A&E at Chelsea and Westminster Hospital.

Dr Omar Ashour

Omar is completing his final internship rotation at the University of Maastricht, the Netherlands. He began his medical studies in Alexandria, Egypt. He will be exploring a real-life case study on Robotic Surgery in his interactive session at MedCon 2023.

BEFORE YOU GO...

Take the OxBright University Preparation Report

OxBright's **free [Personalised Academic Report](#)** will help you to identify the areas your application that you might want to focus on further, as well as giving you the opportunity to compare your preparation with other prospective students.

Deep dive into your subject

Deepen your understanding of your chosen subject with **[OxBright's Online Courses](#)**. Our courses offer a unique opportunity to immerse yourself in your subject, providing in-depth exploration under expert guidance from the best tutors. You can also connect with like-minded learners from around the world, all from the comfort of your own home.

Secure work experience

Work experience is one of the most important aspects of any university application. Whether you volunteer, shadow a professional or complete an OxBright **[Internship](#)** with us, make sure you've got experience on your CV.

Stay up-to-date with your subject

Stay ahead of the curve and keep your knowledge fresh by exploring the latest insights and trends in your subject on **[OxBright's blog](#)**. Our informative articles provide valuable updates and in-depth analysis, ensuring you're always in the know. You can also keep an eye on your inbox for our subject-specific newsletters!

Discover Your Future in Medicine

Medicine Courses

Join us to discover what studying Medicine as an undergraduate is really like. Develop your clinical skills, take part in a medical ethics debate, and connect with like minded young people.

Medicine Internships

From researching the impacts of COVID to exploring the future of cancer therapies, our internships connect you with a researcher to co-author an undergraduate-level paper for publication.
